Elwin Huaman

Researcher at STI Innsbruck
Innsbruck

Extracto

I work on researching of semantic web technologies within the academy and the industry. My main interests are knowledge graphs, knowledge curation, data enrichment, representation, visualization and the combination with related technologies such as machine learning and statistics.

Experiencia

STI Innsbruck

Researcher

septiembre de 2018 - Present (2 años 4 meses)

Innsbruck, Austria

STI International is a global network engaging in research, education, innovation and commercialization activities on semantic technologies working to facilitate their use and applicability within industries and society as a whole. STI Innsbruck is at the University of Innsbruck engaged in research and development to bring information and communication technologies of the future into today's world.

Quechua Experience

Founder

junio de 2017 - Present (3 años 7 meses)

Puno Province, Peru

QUECHUA EXPERIENCES are activities designed and led by inspiring Quechua families. They go beyond typical tourism by immersing guests in true Quechua family traditions. It's an opportunity for anyone to learn about their culture, traditions, or expertise without barriers.
